EXPERIENCE

Quantus · Ambassador 2026

- Found a **command injection** vulnerability in the Quantus mining installer, confirmed by the engineering lead; wrote the patch (PR #14, **44** tests). Merged a Windows mining docs PR to the chain repo (#549).
- Helped run q.day, the largest **TOKEN2049** side event, with a waitlist of nearly **1,000**; managed VIP room access for headline speakers including Balaji.
- Built vc.fail: **28** of the top **100** VCs hold a quantum-related asset. Built exchange.fail: **841** of **947** exchanges list no post-quantum coins.

EIGN · Software Engineer and B2B Sales 2025

- Sold eign.xyz to **4** B2B customers. Built the website diagnostic for lightmark.app.

Guam Power Authority · Workflow Automation 2024

- Wrote a **Python** script, used by interns, that cut an Excel workflow from **~2 hours** to **~2 minutes** per run.

PROJECTS

Garage Sale Grok Bot Hackathon winner, built solo

- **Grok** agents that find Marketplace deals, price items, write listings and draft buyer replies, with **human approval** on every step. Built in **2.5 hours**.

summon.guide

- Chat with **58** AI mentors from history, with cited sources, side-by-side compare and a council mode.

youchop.app

- Paste a YouTube link, get timestamped chapters ready for the description. **66** commits, built solo.

ACHIEVEMENTS

- Won the **Grok Bot Hackathon** (SpaceXAI x Galatiq) with Garage Sale.
- **5,660** GitHub contributions and **362** pull requests. github.com/adamtpang

EDUCATION

App Academy · Full-Stack Web Development 2022 to 2023 · San Francisco

- **<5%** admission rate.

SKILLS

Languages: TypeScript, Python, JavaScript, Bash

Frameworks: React, Next.js, Node.js, FastAPI

AI: Grok, Anthropic and OpenAI APIs, tool use, MCP, structured outputs, evals

Infra: Vercel, Redis, Git, Playwright
