EXPERIENCE

Quantus · Ambassador — Jul 2026 to Oct 2026

- Found and patched a **command injection** in the mining installer: unescaped config values let a node name like $(command) run. PR #14, **44** passing tests.
- Helped run q.day, the largest **TOKEN2049** side event; managed VIP room access for headline speakers including Balaji.
- Built vc.fail: **28** of the top **100** VCs hold a quantum-related asset. Built exchange.fail: **841** of **947** exchanges list no post-quantum coins.

EIGN · Software Engineer and B2B Sales — Dec 2025

- Sold eign.xyz to **4** B2B customers. Built the website diagnostic for lightmark.app.

Guam Power Authority · Workflow Automation — 2024

- Wrote a **Python** script, used by interns, that cut an Excel workflow from **~2 hours** to **~2 minutes** per run.

PROJECTS

Garage Sale · github.com/adamtpang/grokbothackathon — Oct 2026

- **Grok** agents that find Marketplace deals, price items, write listings and draft buyer replies, with **human approval** on every step. Built in **2.5 hours**.

summon.company · github.com/adamtpang/summon.company — 2026

- **265** commits on an **AI agent company** platform. Built a reconciler that checks agent records against the real repo: **12/12** on its eval, **0** false closes on security and payment cases.

skill.supply · github.com/adamtpang/skill.supply — 2026

- Solo **AI career agent**, empty repo to production in under **2 weeks**. Pulls live roles from **4** ATS APIs and **6** job boards.

ACHIEVEMENTS

- Co-won the **Grok Bot Hackathon** (SpaceXAI x Galatiq), Austin, Oct 19, 2026.
- **5,660** GitHub contributions since 2023 and **362** pull requests. github.com/adamtpang

EDUCATION

App Academy · Full-Stack Web Development — 2022 to 2023 · San Francisco

- **<5%** admission rate.
